EXECUTIVE SUMMARY

Technical Lead with 11.5+ years of software engineering experience specializing in Python, FastAPI, Odoo ERP, React.js, PostgreSQL and cloud-native application development. Over 10 years of hands-on experience delivering enterprise Odoo solutions, leading technical teams of 5–8 engineers, architecting scalable backend systems, and implementing digital transformation initiatives. Successfully delivered 15+ ERP implementations and enterprise applications for 10+ international clients across the USA, UK, Saudi Arabia, Australia and the Middle East. Experienced in solution architecture, REST APIs, microservices, API integrations, cloud migration, ERP modernization, performance optimization, data migration, CI/CD and Agile delivery.

CAREER HIGHLIGHTS

- 11.5+ years of overall software development experience.
- 10+ years of Odoo ERP implementation, customization and integration.
- Led engineering teams of 5–8 developers through complete SDLC.
- Delivered 15+ ERP implementations and enterprise software projects.
- Served 10+ international clients across multiple industries and geographies.
- Architected FastAPI microservices and modern backend platforms.
- Led Azure-to-AWS cloud migration and legacy Odoo modernization.
- Strong background in Manufacturing, Retail, Logistics, FinTech, Blockchain, HRMS, POS and eCommerce.

LEADERSHIP & ARCHITECTURE

- Technical solution design and architecture
- Sprint planning, estimation and release management
- Code reviews, mentoring and technical guidance
- Requirement analysis with business stakeholders
- REST API design and third-party integrations
- Cloud deployment, DevOps coordination and production support
- Performance tuning, security and coding standards

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Backend: FastAPI, Odoo ORM, REST APIs, Microservices, Node.js

Frontend: React.js, Next.js, OWL, XML, QWeb, HTML5, CSS3

Databases: PostgreSQL, Redis, ElasticSearch

Cloud: AWS, Azure

DevOps: Docker, Git, Bitbucket, CI/CD

Messaging: RabbitMQ, Celery

ERP: Odoo Community & Enterprise, ERP Implementation, Data Migration

PROFESSIONAL EXPERIENCE

Narith Business Solutions Pvt. Ltd.

Technical Lead / Senior Full Stack Developer | Nov 2023 – Mar 2026

- Led modernization of the OSCAR financial platform by migrating legacy Odoo services to a scalable FastAPI-based microservices architecture.
- Managed a cross-functional team of 5–8 developers, driving sprint planning, task allocation, code reviews, mentoring, and release management.
- Designed and implemented high-performance REST APIs, asynchronous processing pipelines, and secure backend services.
- Directed Azure-to-AWS cloud migration, improving scalability, deployment reliability, and infrastructure efficiency.
- Collaborated directly with international stakeholders to translate business requirements into technical solutions.
- Implemented ElasticSearch indexing, PDF processing, RabbitMQ/Celery background jobs, and performance optimization.
- Technologies: Python, FastAPI, Odoo, PostgreSQL, React.js, AWS, Azure, RabbitMQ, Celery, ElasticSearch, Docker

Zeeve Deeptech Pvt. Ltd.

Team Lead | May 2021 – Oct 2023

- Led engineering activities for blockchain-based SaaS products and cloud-native platforms.
- Designed scalable microservices, REST APIs, and backend architecture supporting high-volume workloads.
- Mentored engineers, established coding standards, and performed architecture reviews.
- Worked closely with DevOps teams to improve CI/CD pipelines and deployment automation.
- Partnered with clients and product owners to deliver secure, scalable enterprise solutions.
- Technologies: Python, FastAPI, Node.js, React.js, PostgreSQL, AWS, Docker, CI/CD

Prolitus Technologies

Senior Software Engineer / Odoo Technical Lead | Sep 2014 – Apr 2021

- Delivered 15+ ERP implementations for manufacturing, retail, logistics, HRMS, POS, healthcare, and eCommerce clients.
- Designed and developed custom Odoo Community and Enterprise modules using Python, PostgreSQL, XML, QWeb, OWL, and JavaScript.
- Implemented third-party integrations including Amazon, Shopify, FedEx, UPS, USPS, and Atlassian JIRA.
- Led ERP customization, API integration, data migration, version upgrades, deployment, and production support.
- Collaborated with functional consultants and business stakeholders to deliver enterprise-grade ERP solutions.
- Technologies: Odoo, Python, PostgreSQL, XML, QWeb, OWL, JavaScript, REST APIs

KEY PROJECTS

OSCAR Financial Platform (USA)

Domain: Financial Services / FinTech

Key Responsibilities & Achievements:

- Led the modernization of a legacy Odoo-based financial platform into a scalable FastAPI-driven microservices architecture.
- Designed RESTful APIs for customer onboarding, financial analysis, document processing, and loan eligibility workflows.
- Implemented asynchronous processing using RabbitMQ and Celery to improve throughput and background task execution.
- Directed Azure-to-AWS cloud migration, improving deployment flexibility, scalability, and operational efficiency.
- Optimized Elasticsearch indexing and PDF processing pipelines for faster financial document analysis.
- Collaborated with international stakeholders, architects, and product owners to deliver enterprise-grade solutions.

Technology Stack: Python, FastAPI, Odoo, PostgreSQL, AWS, Azure, RabbitMQ, Celery, Elasticsearch, Docker, REST APIs

Blockchain Platform

Domain: Blockchain SaaS

Key Responsibilities & Achievements:

- Led backend architecture for blockchain infrastructure and SaaS platform.
- Designed secure microservices and REST APIs supporting high-volume blockchain operations.
- Worked closely with DevOps teams on scalable cloud deployment and CI/CD automation.
- Improved reliability, monitoring, and performance of distributed backend services.

Technology Stack: Python, FastAPI, PostgreSQL, React.js, Docker, AWS

Ledger API Documentation Portal

Domain: Developer Platform

Key Responsibilities & Achievements:

- Designed centralized API documentation and developer portal.
- Standardized API specifications and improved onboarding experience for integration partners.
- Collaborated with engineering teams to maintain versioned API documentation.

Technology Stack: FastAPI, Swagger/OpenAPI, Python, REST APIs

KYC Identity Verification Platform

Domain: Identity & Compliance

Key Responsibilities & Achievements:

- Developed secure backend services for customer verification workflows.
- Integrated third-party identity verification APIs.
- Implemented document validation and audit logging capabilities.

Technology Stack: Python, FastAPI, PostgreSQL, REST APIs

Manufacturing ERP

Domain: Manufacturing

Key Responsibilities & Achievements:

- Implemented enterprise Manufacturing ERP covering MRP, procurement, inventory and production planning.
- Customized workflows, reports and dashboards according to business requirements.
- Developed advanced scheduling and shop-floor automation modules.
- Improved inventory visibility and manufacturing efficiency through process automation.

Technology Stack: Odoo ERP, Python, PostgreSQL, XML, QWeb, Inventory, MRP

Amazon Marketplace Connector

Domain: eCommerce Integration

Key Responsibilities & Achievements:

- Designed and developed a robust integration framework between Odoo ERP and Amazon Marketplace.
- Automated synchronization of products, inventory, pricing, customers, orders, shipments, and invoices.
- Implemented scheduled background jobs, exception handling, and reconciliation processes to minimize manual intervention.
- Optimized API communication and improved reliability for high-volume marketplace transactions.

Technology Stack: Python, Odoo ERP, REST APIs, Amazon SP-API, PostgreSQL

Shopify Connector

Domain: eCommerce Integration

Key Responsibilities & Achievements:

- Built scalable Shopify integration for bi-directional synchronization of products, customers, inventory, and orders.
- Customized business workflows to support multiple Shopify stores and automated fulfillment processes.
- Enhanced operational efficiency by reducing manual data entry and synchronization delays.

Technology Stack: Python, Odoo ERP, Shopify API, PostgreSQL, XML

Shipping Management Integration

Domain: Logistics & Supply Chain

Key Responsibilities & Achievements:

- Integrated FedEx, UPS, USPS and other shipping providers with Odoo ERP.
- Automated shipment creation, label generation, tracking updates, and delivery status synchronization.
- Improved logistics visibility and streamlined warehouse dispatch operations.

Technology Stack: Python, Odoo ERP, FedEx API, UPS API, USPS API, REST APIs

JIRA Integration

Domain: Project Management

Key Responsibilities & Achievements:

- Integrated Odoo ERP with Atlassian JIRA to synchronize projects, tasks, users, and issue tracking.
- Enabled seamless collaboration between business and engineering teams through automated workflows.
- Developed secure API communication and configurable synchronization mechanisms.

Technology Stack: Python, Odoo ERP, Atlassian JIRA API, REST APIs

Employee Document Management System

Domain: HRMS

Key Responsibilities & Achievements:

- Designed and implemented a centralized employee document management solution.
- Automated document storage, approvals, lifecycle tracking, notifications, and compliance workflows.
- Implemented role-based access control and secure document handling.

Technology Stack: Python, Odoo ERP, PostgreSQL, XML, QWeb

Electroclinic eCommerce Platform

Domain: eCommerce

Key Responsibilities & Achievements:

- Developed customized eCommerce and ERP functionalities for a healthcare retail platform.
- Integrated inventory, order processing, invoicing, CRM, and customer management modules.
- Improved operational efficiency by automating end-to-end business workflows.

Technology Stack: Odoo ERP, Python, Website, eCommerce, PostgreSQL

Call Center Order Management

Domain: Retail / CRM

Key Responsibilities & Achievements:

- Developed an integrated order and customer management solution for call center operations.
- Automated order lifecycle, customer interactions, invoicing and reporting.
- Improved operational efficiency through workflow automation.

Technology Stack: Python, Odoo ERP, PostgreSQL

Restaurant POS

Domain: Restaurant

Key Responsibilities & Achievements:

- Customized Odoo POS with table management, kitchen order tickets, reservations and billing.
- Enhanced user experience with custom workflows and operational reports.

Technology Stack: Odoo POS, Python, JavaScript, OWL, PostgreSQL

POS Loyalty & Rewards

Domain: Retail

Key Responsibilities & Achievements:

- Designed loyalty programs including reward points, memberships, coupons and promotional campaigns.
- Integrated loyalty engine with POS and sales modules.

Technology Stack: Python, Odoo ERP, PostgreSQL

Food Delivery Platform (Personal Project)

Domain: FoodTech

Key Responsibilities & Achievements:

- Developed a modern food ordering application demonstrating full-stack architecture using FastAPI and React.
- Implemented authentication, order workflows, REST APIs and responsive UI.

Technology Stack: FastAPI, React.js, PostgreSQL

EDUCATION

BCA, 2010, Rajasthan University

MCA, 2014, Pune University

CORE COMPETENCIES

- Technical Leadership
- Solution Architecture
- Python Development
- FastAPI
- React.js
- Odoo ERP
- REST API Development
- API Integration
- ERP Implementation
- Data Migration
- Microservices
- AWS
- Azure
- PostgreSQL
- Docker
- CI/CD
- Agile & Scrum
- Code Reviews
- Mentoring

- Performance Optimization
- Cloud Migration
- System Design

PROFESSIONAL PROFILE

Recognized for leading enterprise software initiatives from concept to production while balancing architecture, hands-on development, mentoring, stakeholder communication and delivery management. Strong ability to translate business requirements into scalable technical solutions and drive digital transformation through modern engineering practices.
